

STRAWBERRIES ON 903

Community Supported Agriculture Program

Strawberries on 903 is now accepting registration for our 2020 Community Supported Agriculture (CSA) program. To sign up, please fill out the attached registration form. We have numerous returning customers and several new customers interested in this very popular program. We encourage early registration to ensure you don't miss out on our CSA program this year.

Subscribers will receive a box of fresh fruit and produce from our farm each week of a 12-week season, running from May through July, 2020. The assortment of produce will vary throughout the season and contain a wide variety of seasonal items.

Our Community Supported Agriculture Grower Agreement may be purchased for \$260 prior to March 1st. The full amount may be paid at time of registration, or a deposit of \$130 may be made with balance due by March 1st. After March 1st, CSA registration fee will increase to \$275. Final deadline for registering is April 1, 2020.

Due to the unpredictability of farming, we are unable to guarantee any specific item. We are not able to customize individual boxes; however, we will accept your requests for more of an item for canning, freezing or for a special event. Charges for additional items will be based on quantity ordered. Please provide a 1 week notice for special requests.

Subscribers are responsible for picking up their boxes at the designated pick-up point. We will have multiple pick-up sites and dates depending on the total number of members. Please see the registration form for proposed pickup locations.

We ask that you pick up your box on the designated day you have registered for. If you will be away (i.e. vacation or business travel), you are encouraged to find friends or another family member to pick up your box as we are unable to credit missed pick-ups. If you miss a weekly pick-up, your share will be donated to charity.

Please find the list of expected fruits and vegetables we plan to provide for the 12-week season below.

May Produce

Asparagus, cabbage, strawberries, spring onions, sweet onions, red potatoes, sweet potatoes, tomatoes, garden peas, beets, broccoli, carrots, cauliflower, kale, radish and lettuce
